WSQ · CAMERA OPERATIONS

Master Mobile Photography: Capturing Professional Photos with Your Smartphone

Capture with intent · compose with purpose · edit with restraint

TGS-2026064718

Version v12.0 · 19 August 2026

Trainer: Dr Alfred Ang

Tertiary Infotech Academy Pte Ltd · UEN 201200696W

Digital Attendance (Mandatory)

1. Take AM, PM and Assessment digital attendance for this WSQ-funded course.
2. The trainer or administrator displays the SSG attendance QR code.
3. Scan with Singpass/mobile camera and submit each required attendance.
4. At least 75% attendance and a Competent assessment outcome are required.

About the Trainer

Dr Alfred Ang

Principal Trainer · Tertiary Infotech Academy

ROLE
Principal Trainer and courseware lead

EXPERTISE
AI, automation, software and visual learning design

DELIVERS
WSQ and professional digital-skills programmes

ORGANISATION
Tertiary Infotech Academy Pte Ltd

© 2026 Tertiary Infotech Academy Pte Ltd

ICEBREAKER

Let's Know Each Other

1. Name, organisation and role
2. Your main photography use case
3. Phone model and camera experience
4. One result you want by the end of Day 2

© 2026 Tertiary Infotech Academy Pte Ltd

HOUSEKEEPING

Ground Rules

1. **Phone on silent except during guided capture**

Phone on silent except during guided capture

2. **Participate actively and ask questions**

Participate actively and ask questions

3. **Respect people, locations and differing views**

Respect people, locations and differing views

4. **One conversation at a time**

One conversation at a time

5. **Return from breaks punctually**

Return from breaks punctually

6. **Stop any activity that becomes unsafe**

Stop any activity that becomes unsafe

COURSE AT A GLANCE

Course Profile

Programme

1. 2 days · 16 hours
2. Beginner level
3. Camera Operations
4. TSC MED-MPN-3034-1.1

What to bring

1. Smartphone with camera
2. Optional laptop for file review
3. Activities in individual folders
4. WA and Practical Performance

© 2026 Tertiary Infotech Academy Pte Ltd

How a Smartphone Builds an Image

Optics

The lens and camera module set field of view, perspective and how much light reaches the sensor.

Sensor

The sensor records light within physical limits such as noise, motion blur and dynamic range.

Computation

The phone aligns and merges frames, then applies tone, colour, sharpening and noise reduction.

© 2026 Tertiary Infotech Academy Pte Ltd

WHAT YOU'LL ACHIEVE

Learning Outcomes

1

LO1

Set up a mobile phone camera for shooting and interpret a shot plan.

2

LO2

Perform basic mobile photography while meeting safety requirements.

3

LO3

Apply framing and composition techniques using a mobile phone camera.

4

LO4

Enhance visual quality and effects using capture and editing controls.

© 2026 Tertiary Infotech Academy Pte Ltd

KNOWLEDGE K1–K8

Skills Framework Coverage

1 **K1**

Technical specifications for camera equipment and accessories

2 **K2**

Features and functions of camera equipment and accessories

3 **K3**

Instructions for operating different cameras

4 **K4**

Camera positions used to shoot and frame

5 **K5**

Principles of picture composition

6 **K6**

Cinematography techniques

7 **K7**

Specialty camera equipment and accessories

8 **K8**

Safety regulations and procedures for camera operations

© 2026 Tertiary Infotech Academy Pte Ltd

ABILITIES A1–A7

Ability Coverage

1 **A1**

Interpret detailed shot plans and technical requirements

2 **A2**

Coordinate teams for mounted or complex shots

3 **A3**

Inspect equipment for correct and safe fitting

4 **A4**

Operate cameras to meet aesthetic requirements

5 **A5**

Control camera movement, framing and composition safely

6 **A6**

Alter settings or equipment to compensate for variables

7 **A7**

Provide feedback on angles and movement to improve visual effects

© 2026 Tertiary Infotech Academy Pte Ltd

SCHEDULE

Lesson Plan — Day 1

Morning

1. 09:00 Admin, outcomes and assessment briefing
2. 09:45 Topic 1 concepts
3. 11:20 Activity 1
4. 12:15 Lunch

Afternoon

1. 13:00 Activity 2
2. 14:00 Topic 2 concepts
3. 16:00 Activities 3–4
4. 17:40 Review and Day 1 close

© 2026 Tertiary Infotech Academy Pte Ltd

SCHEDULE

Lesson Plan — Day 2

Morning

1. 09:00 Topic 3 concepts
2. 10:30 Activities 5–6
3. 12:15 Lunch
4. 13:00 Topic 4 concepts

Afternoon and assessment

1. 14:00 Activities 7–8 and course review
2. 15:00 Written Assessment · 90 min
3. 16:30 Practical Performance · 90 min
4. 18:00 End of class

© 2026 Tertiary Infotech Academy Pte Ltd

BEFORE ASSESSMENT

Briefing for Assessment

1. Individual, open-book work; no discussion
2. Use only the slides, Learner Guide and approved materials
3. No photographs or recordings of assessment scripts
4. Keep phones/materials under the table unless instructed
5. Submit on the LMS and sign the Assessment Summary Record

© 2026 Tertiary Infotech Academy Pte Ltd

FINAL ASSESSMENT

Assessment and Funding

Knowledge

1. Written Assessment (SAQ)
2. 8 open-ended questions
3. K1–K8
4. 90 minutes

Ability

1. Practical Performance
2. 3 integrated tasks
3. A1–A7
4. 90 minutes

© 2026 Tertiary Infotech Academy Pte Ltd

ON ASSESSMENT DAY

Assessment Flow

1. TRAQOM digital attendance
2. Assessment digital attendance
3. Sit WA then PP
4. Submit answers on LMS
5. Sign Assessment Summary Record

© 2026 Tertiary Infotech Academy Pte Ltd

Access the Course Activities

Clone

1. Open the course repository
2. Copy the repository address
3. Open the activities folder

Download

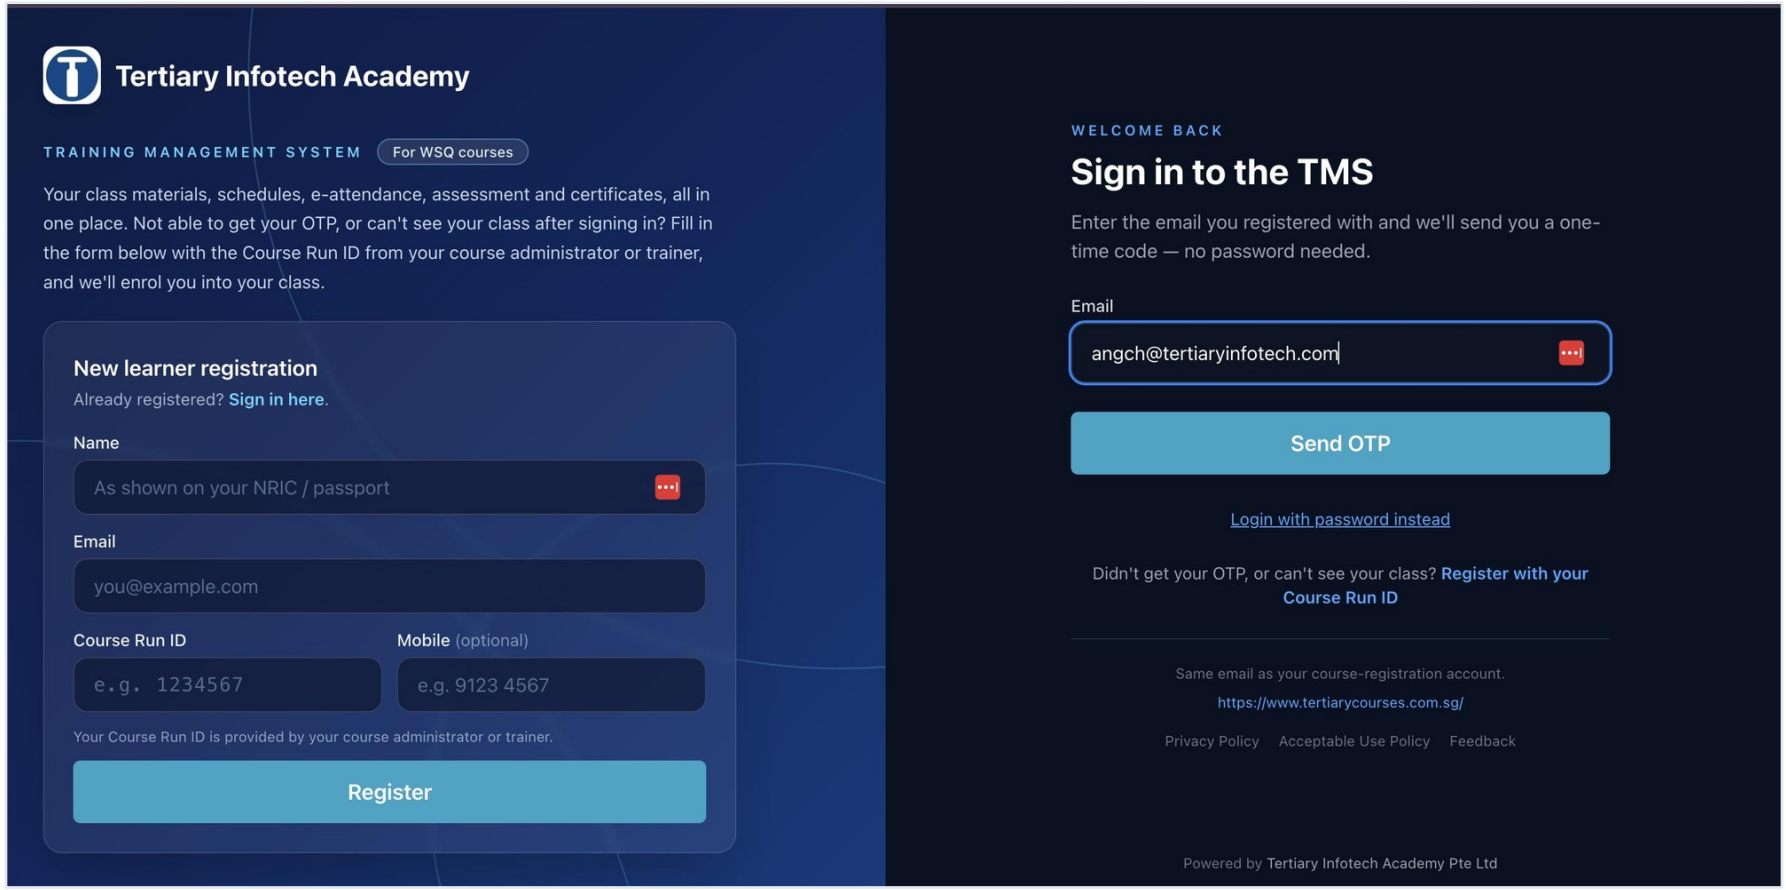

1. Choose Code · Download ZIP
2. Extract the downloaded file
3. Each activity is self-contained

From Film to Computational Cameras

1

35 mm film records light chemically

35 mm film records light chemically

2

Digital cameras record light on a sensor

Digital cameras record light on a sensor

3

Smartphones combine optics, sensor and algorithms

Smartphones combine optics, sensor and algorithms

4

The useful question is fitness for purpose—not status

The useful question is fitness for purpose—not status

© 2026 Tertiary Infotech Academy Pte Ltd

Inside a Smartphone Camera

1. Lens gathers and directs light
2. Sensor converts light into electrical data
3. Image processor reduces noise and builds colour
4. Computational capture may merge several frames

© 2026 Tertiary Infotech Academy Pte Ltd

Camera Types and Choosing Well

1 **Film**

tactile process and finite frames

2 **Dedicated digital**

larger controls and system lenses

3 **Mobile**

always available, connected and discreet

4 **Choose by purpose, budget, speed and acceptable quality**

Choose by purpose, budget, speed and acceptable quality

© 2026 Tertiary Infotech Academy Pte Ltd

The Multi-Camera Phone

1

Ultra-wide expands the field of view

Ultra-wide expands the field of view

2

Wide/main camera is usually the strongest all-rounder

Wide/main camera is usually the strongest all-rounder

3

Telephoto changes framing without walking closer

Telephoto changes framing without walking closer

4

Macro/depth/ periscope modules vary by device

Why Mobile Photography Works

1

The camera is already with you

The camera is already with you

2

Capture, edit and share on one device

Capture, edit and share on one device

3

Small size supports candid and low-profile work

Small size supports candid and low-profile work

4

Accessories cost less than a full camera system

Accessories cost less than a full camera system

© 2026 Tertiary Infotech Academy Pte Ltd

Limits to Plan Around

1

Small sensors struggle when light is scarce

Small sensors struggle when light is scarce

2

Digital zoom removes pixels

Digital zoom removes pixels

3

Tiny lenses exaggerate flare and smudges

Tiny lenses exaggerate flare and smudges

4

Automation can misread focus, colour or depth

Automation can misread focus, colour or depth

© 2026 Tertiary Infotech Academy Pte Ltd

Stability Accessories

1

Two-handed grip reduces shake

Two-handed grip reduces shake

2

Tripod supports low light, panorama and repeatable framing

Tripod supports low light, panorama and repeatable framing

3

Bluetooth or timer release avoids touch vibration

Bluetooth or timer release avoids touch vibration

4

A clamp must fit the phone and tighten securely

A clamp must fit the phone and tighten securely

© 2026 Tertiary Infotech Academy Pte Ltd

Optical and Lighting Accessories

1 **Clip-on lenses must align with the correct module**

Clip-on lenses must align with the correct module

2 **Filters can control glare or incoming light**

Filters can control glare or incoming light

3 **LED panels provide continuous, directional light**

LED panels provide continuous, directional light

4 **A power bank protects a long assignment**

A power bank protects a long assignment

© 2026 Tertiary Infotech Academy Pte Ltd

Accessory Selection Matrix

1 **Need**

solve a real capture problem

2 **Fit**

verify model, clamp and load compatibility

3 **Quality**

check sharpness, flare and build

4 **Safety**

inspect edges, joints, heat and cables

© 2026 Tertiary Infotech Academy Pte Ltd

The Pre-Shoot Inspection

1. Clean all active lenses with a microfibre cloth
2. Check battery, storage and chosen format
3. Test tripod locks, clamp, remote and light
4. Record defects and remove unsafe equipment

© 2026 Tertiary Infotech Academy Pte Ltd

Safe Camera Handling

1

Keep fingers clear of lenses

Keep fingers clear of lenses

2

Stand balanced and stop before composing

Stand balanced and stop before composing

3

Use a wrist strap where a drop could injure

Use a wrist strap where a drop could injure

4

Never step backward into traffic or hazards

Never step backward into traffic or hazards

© 2026 Tertiary Infotech Academy Pte Ltd

Anatomy of a Shot Plan

1 **Objective and audience**

Objective and audience

2 **Subject, location and production style**

Subject, location and production style

3 **Shot list with size, angle and composition**

Shot list with size, angle and composition

4 **Light, settings, equipment, safety and permissions**

Light, settings, equipment, safety and permissions

© 2026 Tertiary Infotech Academy Pte Ltd

Translate a Brief into Pictures

1. Identify the message the client needs
2. Select a visual style that supports it
3. Turn deliverables into observable shot requirements
4. Define acceptance criteria before capture

© 2026 Tertiary Infotech Academy Pte Ltd

Coordinate a Mounted Shot

1

Agree roles and a clear call sequence

Agree roles and a clear call sequence

2

Mark the tripod footprint away from public flow

Mark the tripod footprint away from public flow

3

Confirm horizon, sweep direction and start/end points

Confirm horizon, sweep direction and start/end points

4

Stop when people enter the operating zone

Stop when people enter the operating zone

Plan and Inspect a Café Product Shoot

ACTIVITY 1

A neighbourhood café needs eight smartphone photographs of a signature dish and wellness product for a launch post.

YOU'LL PRODUCE

Approved shot plan, equipment inspection, safety check and two test frames

Full procedures: Learner Guide and Activity folder

A1 · A3 · Smartphone, microfibre cloth, tabletop tripod, LED panel, reflector, power bank

© 2026 Tertiary Infotech Academy Pte Ltd

ACTIVITY 1 · ANALYSE BEFORE CAPTURE

Visual Brief and Reference

1. What attracts attention first?
2. Which light, angle and composition choices are visible?
3. What could fail technically or ethically?
4. Which acceptance criterion does the image demonstrate?

© 2026 Tertiary Infotech Academy Pte Ltd

ACTIVITY 1 · VERIFY

Acceptance Review

- ✓ **All eight shots map to a clear purpose**
- ✓ **Inspection checklist is complete**
- ✓ **No unsafe equipment remains in use**
- ✓ **Test frames meet focus and highlight criteria**

Evidence: final images · completed checklist · settings/decision log · peer feedback

© 2026 Tertiary Infotech Academy Pte Ltd

Coordinate a Safe Retail Panorama

ACTIVITY 2

A retail centre needs a clean panorama and supporting wide photographs showing an atrium without obstructing public movement.

YOU'LL PRODUCE

Role call sheet, safe tripod setup, panorama and two supporting wide shots

Full procedures: Learner Guide and Activity folder

A2 · A4 · Smartphone, tripod and clamp, Bluetooth remote, floor markers

© 2026 Tertiary Infotech Academy Pte Ltd

ACTIVITY 2 · ANALYSE BEFORE CAPTURE

Visual Brief and Reference

1. What attracts attention first?
2. Which light, angle and composition choices are visible?
3. What could fail technically or ethically?
4. Which acceptance criterion does the image demonstrate?

© 2026 Tertiary Infotech Academy Pte Ltd

ACTIVITY 2 · VERIFY

Acceptance Review

- ✓ **Roles and stop signals are documented**
- ✓ **Tripod is stable and non-obstructive**
- ✓ **Panorama has a level horizon and clean seams**
- ✓ **Supporting shots meet the aesthetic brief**

Evidence: final images · completed checklist · settings/decision log · peer feedback

The Exposure Triangle—Adapted for Phones

1

Shutter time controls motion and incoming light

Shutter time controls motion and incoming light

2

ISO amplifies the sensor signal and noise

ISO amplifies the sensor signal and noise

3

Aperture is normally fixed on the phone module

Aperture is normally fixed on the phone module

4

Automation and multi-frame processing share the workload

Automation and multi-frame processing share the workload

© 2026 Tertiary Infotech Academy Pte Ltd

Shutter Time and Motion

1. **Fast capture freezes action**

   Fast capture freezes action

2. **Slow capture records motion as blur**

   Slow capture records motion as blur

3. **Panning follows a moving subject**

   Panning follows a moving subject

4. **Long exposure needs stability and a controlled scene**

   Long exposure needs stability and a controlled scene

© 2026 Tertiary Infotech Academy Pte Ltd

ISO and Image Quality

1

Low ISO generally gives cleaner detail

Low ISO generally gives cleaner detail

2

Higher ISO helps in low light but adds noise

Higher ISO helps in low light but adds noise

3

Stabilise before raising ISO unnecessarily

Stabilise before raising ISO unnecessarily

4

Judge the result at useful viewing size

Judge the result at useful viewing size

© 2026 Tertiary Infotech Academy Pte Ltd

Tap Focus and Focus Lock

1

Place focus on the intended subject

Place focus on the intended subject

2

Check eyes for portraits and detail for products

Check eyes for portraits and detail for products

3

Lock focus when recomposing or waiting for action

Lock focus when recomposing or waiting for action

4

Re-focus if subject distance changes

Re-focus if subject distance changes

© 2026 Tertiary Infotech Academy Pte Ltd

Exposure Compensation and AE Lock

1. Tap the subject or priority tone
2. Move the brightness control up or down
3. Lock exposure for a consistent sequence
4. Review highlights and re-adjust before capture

© 2026 Tertiary Infotech Academy Pte Ltd

White Balance and Colour Temperature

1 **Warm light shifts toward amber**

Warm light shifts toward amber

2 **Cool light shifts toward blue**

Cool light shifts toward blue

3 **Auto white balance may change between frames**

Auto white balance may change between frames

4 **Set a preset or manual value for consistency**

Set a preset or manual value for consistency

© 2026 Tertiary Infotech Academy Pte Ltd

HDR and Dynamic Range

1

High-contrast scenes exceed one exposure

High-contrast scenes exceed one exposure

2

HDR blends frames for shadow and highlight detail

HDR blends frames for shadow and highlight detail

3

Movement can cause ghosting

Movement can cause ghosting

4

Keep the phone steady and inspect edges

Keep the phone steady and inspect edges

© 2026 Tertiary Infotech Academy Pte Ltd

Optical vs Digital Zoom

1

Optical steps use another physical camera

Optical steps use another physical camera

2

Digital zoom crops and enlarges pixels

Digital zoom crops and enlarges pixels

3

Move closer when it is safe

Move closer when it is safe

4

Crop later when composition allows

Crop later when composition allows

© 2026 Tertiary Infotech Academy Pte Ltd

Perspective and Compression

1 **Camera position controls perspective**

Camera position controls perspective

2 **Close wide-angle views exaggerate near objects**

Close wide-angle views exaggerate near objects

3 **Farther tele views appear more compressed**

Farther tele views appear more compressed

4 **Choose position first, then lens**

Choose position first, then lens

Read the Direction of Light

1 **Front light reveals detail**

Front light reveals detail

2 **Side light models form and texture**

Side light models form and texture

3 **Backlight creates rim light or silhouette**

Backlight creates rim light or silhouette

4 **Top light can deepen eye and nose shadows**

Top light can deepen eye and nose shadows

© 2026 Tertiary Infotech Academy Pte Ltd

Soft, Hard and Available Light

1 **Large close sources create softer transitions**

Large close sources create softer transitions

2 **Small or distant sources make hard edges**

Small or distant sources make hard edges

3 **Window light is an efficient soft source**

Window light is an efficient soft source

4 **Use reflectors or white surfaces before flash**

Use reflectors or white surfaces before flash

© 2026 Tertiary Infotech Academy Pte Ltd

Golden Hour, Blue Hour and Midday

1

Golden hour gives warm directional light

Golden hour gives warm directional light

2

Blue hour balances sky and city lights

Blue hour balances sky and city lights

3

Midday produces hard shadows and bright highlights

Midday produces hard shadows and bright highlights

4

Match the time of day to the intended mood

Match the time of day to the intended mood

© 2026 Tertiary Infotech Academy Pte Ltd

Night and Low-Light Strategy

1. Clean the lens
2. Use night mode or a stable support
3. Lower exposure to protect bright lamps
4. Use available light and expect some texture/noise

© 2026 Tertiary Infotech Academy Pte Ltd

Burst, Panorama and Portrait Modes

1

Burst improves timing for action

Burst improves timing for action

2

Panorama stitches a controlled sweep

Panorama stitches a controlled sweep

3

Portrait mode estimates subject separation

Portrait mode estimates subject separation

4

Review seams, edges and depth errors

Review seams, edges and depth errors

© 2026 Tertiary Infotech Academy Pte Ltd

Flash: Use with Intent

1

On-phone flash is small and near the lens

On-phone flash is small and near the lens

2

It can flatten faces and create hard reflections

It can flatten faces and create hard reflections

3

Prefer window, ambient or off-axis LED light

Prefer window, ambient or off-axis LED light

4

Use flash only when its look solves the brief

Use flash only when its look solves the brief

© 2026 Tertiary Infotech Academy Pte Ltd

A Clean Capture Routine

1. Clean · stabilise · frame
2. Focus · set brightness · lock if needed
3. Capture a short variation set
4. Review sharpness, highlights and distractions

© 2026 Tertiary Infotech Academy Pte Ltd

Control Exposure and Colour at a Corporate Event

ACTIVITY 3

An event organiser needs speaker and audience photographs under mixed warm stage light and cool ambient light.

YOU'LL PRODUCE

Exposure/focus test set, white-balance comparison and five usable event frames

Full procedures: Learner Guide and Activity folder

A4 · A6 · Smartphone with Pro/Manual mode or exposure compensation, optional monopod

© 2026 Tertiary Infotech Academy Pte Ltd

ACTIVITY 3 · ANALYSE BEFORE CAPTURE

Visual Brief and Reference

1. What attracts attention first?
2. Which light, angle and composition choices are visible?
3. What could fail technically or ethically?
4. Which acceptance criterion does the image demonstrate?

© 2026 Tertiary Infotech Academy Pte Ltd

ACTIVITY 3 · VERIFY

Acceptance Review

- ✓ **Faces are sharp and readable**
- ✓ **Important highlights are not clipped**
- ✓ **White balance is consistent across the sequence**
- ✓ **Five frames cover place, action and reaction**

Evidence: final images · completed checklist · settings/decision log · peer feedback

© 2026 Tertiary Infotech Academy Pte Ltd

Freeze and Blur Motion at Blue Hour

ACTIVITY 4

A city mobility campaign needs one frozen-action frame and one creative motion frame from a safe waterfront location.

YOU'LL PRODUCE

Frozen-action image, panning image, low-light comparison and settings log

Full procedures: Learner Guide and Activity folder

A4 · A5 · A6 · Smartphone with burst/manual controls, tripod or stable support, Bluetooth remote

© 2026 Tertiary Infotech Academy Pte Ltd

ACTIVITY 4 · ANALYSE BEFORE CAPTURE

Visual Brief and Reference

1. What attracts attention first?
2. Which light, angle and composition choices are visible?
3. What could fail technically or ethically?
4. Which acceptance criterion does the image demonstrate?

© 2026 Tertiary Infotech Academy Pte Ltd

ACTIVITY 4 · VERIFY

Acceptance Review

- ✓ **Capture position is safe**
- ✓ **Frozen frame has a readable subject**
- ✓ **Panning frame communicates motion**
- ✓ **Settings/effect relationship is explained**

Evidence: final images · completed checklist · settings/decision log · peer feedback

Frame Within a Frame

1. **Use doors, windows, branches or foreground shapes**
   Use doors, windows, branches or foreground shapes

2. **The inner frame concentrates attention**
   The inner frame concentrates attention

3. **Keep the frame relevant to the setting**
   Keep the frame relevant to the setting

4. **Do not cover important subject detail**
   Do not cover important subject detail

© 2026 Tertiary Infotech Academy Pte Ltd

Patterns, Texture and Repetition

1

Fill the frame to strengthen rhythm

Fill the frame to strengthen rhythm

2

Break a pattern with one contrasting subject

Break a pattern with one contrasting subject

3

Side light reveals texture

Side light reveals texture

4

Repetition may be natural or arranged

Repetition may be natural or arranged

© 2026 Tertiary Infotech Academy Pte Ltd

Contrast Creates Separation

1. **Tonal**
   light against dark
2. **Colour**
   warm against cool or complementary hues
3. **Scale**
   large against small
4. **Concept**
   old against new, still against moving

© 2026 Tertiary Infotech Academy Pte Ltd

Reflections and Visual Effects

1

Use water, glass or polished metal

Use water, glass or polished metal

2

Control angle to keep or remove reflections

Control angle to keep or remove reflections

3

Symmetry can strengthen a mirrored scene

Symmetry can strengthen a mirrored scene

4

Check for unwanted photographer reflections

Complete a Composition Photo Walk

ACTIVITY 5

A design studio needs a visual library of textures and urban details for a Singapore-themed mood board.

YOU'LL PRODUCE

Ten-image contact sheet demonstrating ten named composition techniques

Full procedures: Learner Guide and Activity folder

A5 · Smartphone, grid overlay, optional macro attachment

© 2026 Tertiary Infotech Academy Pte Ltd

ACTIVITY 5 · ANALYSE BEFORE CAPTURE

Visual Brief and Reference

1. What attracts attention first?
2. Which light, angle and composition choices are visible?
3. What could fail technically or ethically?
4. Which acceptance criterion does the image demonstrate?

© 2026 Tertiary Infotech Academy Pte Ltd

ACTIVITY 5 · VERIFY

Acceptance Review

- ✓ **Ten distinct labelled techniques**
- ✓ **Primary subject is immediately identifiable**
- ✓ **Edges are clean and horizons intentional**
- ✓ **No privacy or location-rule breach**

Evidence: final images · completed checklist · settings/decision log · peer feedback

© 2026 Tertiary Infotech Academy Pte Ltd

Direct an Environmental Portrait and Property View

ACTIVITY 6

A small-business profile needs an owner portrait plus an interior image that describes the working environment.

YOU'LL PRODUCE

Three portrait variations and two corrected interior views

Full procedures: Learner Guide and Activity folder

A4 · A5 · Smartphone, window light, reflector/white card, tripod if available

© 2026 Tertiary Infotech Academy Pte Ltd

ACTIVITY 6 · ANALYSE BEFORE CAPTURE

Visual Brief and Reference

1. What attracts attention first?
2. Which light, angle and composition choices are visible?
3. What could fail technically or ethically?
4. Which acceptance criterion does the image demonstrate?

© 2026 Tertiary Infotech Academy Pte Ltd

ACTIVITY 6 · VERIFY

Acceptance Review

- ✓ **Consent and use are recorded**
- ✓ **Portrait has credible skin tone and sharp eyes**
- ✓ **Interior verticals are controlled**
- ✓ **Five images communicate person and place**

Evidence: final images · completed checklist · settings/decision log · peer feedback

Colour and Detail with Restraint

1 **Correct white balance before creative grading**

Correct white balance before creative grading

2 **Use saturation selectively**

Use saturation selectively

3 **Sharpen lightly at final size**

Sharpen lightly at final size

4 **Avoid halos, waxy noise reduction and fake HDR**

Avoid halos, waxy noise reduction and fake HDR

© 2026 Tertiary Infotech Academy Pte Ltd

Feedback That Improves the Next Shot

1. Describe what is visible
2. Connect it to the brief
3. Identify one cause, not a vague dislike
4. Recommend a specific camera position, setting or timing change

© 2026 Tertiary Infotech Academy Pte Ltd

Select and Mount Specialty Camera Equipment

ACTIVITY 7

An outdoor education provider needs a safe action sequence and asks whether a phone, action camera or creative toy-camera look is appropriate.

YOU'LL PRODUCE

Equipment decision, mounting inspection, five-shot action sequence and feedback note

Full procedures: Learner Guide and Activity folder

A2 · A3 · A7 · Smartphone, action camera/housing or simulator, rated mount, safety tether

© 2026 Tertiary Infotech Academy Pte Ltd

ACTIVITY 7 · ANALYSE BEFORE CAPTURE

Visual Brief and Reference

1. What attracts attention first?
2. Which light, angle and composition choices are visible?
3. What could fail technically or ethically?
4. Which acceptance criterion does the image demonstrate?

© 2026 Tertiary Infotech Academy Pte Ltd

ACTIVITY 7 · VERIFY

Acceptance Review

- ✓ **Equipment choice is justified**
- ✓ **Mount and tether pass inspection**
- ✓ **Five-shot sequence covers the action**
- ✓ **Feedback links an observable defect to a specific correction**

Evidence: final images · completed checklist · settings/decision log · peer feedback

© 2026 Tertiary Infotech Academy Pte Ltd

Edit and Deliver a Tourism Campaign Set

ACTIVITY 8

A local travel business needs six consistent photographs for a web page, square social post and vertical story.

YOU'LL PRODUCE

Six-image final set, before/after comparisons, export matrix and critique record

Full procedures: Learner Guide and Activity folder

A6 · A7 · Built-in editor, Lightroom Mobile or Snapseed; file manager/cloud folder

© 2026 Tertiary Infotech Academy Pte Ltd

ACTIVITY 8 · ANALYSE BEFORE CAPTURE

Visual Brief and Reference

1. What attracts attention first?
2. Which light, angle and composition choices are visible?
3. What could fail technically or ethically?
4. Which acceptance criterion does the image demonstrate?

© 2026 Tertiary Infotech Academy Pte Ltd

ACTIVITY 8 · VERIFY

Acceptance Review

- ✓ **Six images are visually consistent**
- ✓ **Edits retain natural texture and colour**
- ✓ **Exports match the named channels**
- ✓ **Critique contains a specific evidence-based improvement**

Evidence: final images · completed checklist · settings/decision log · peer feedback

WRAP-UP

Professional Mobile Photography Workflow

Plan · inspect · capture · review · edit · deliver

© 2026 Tertiary Infotech Academy Pte Ltd

The Complete Workflow

1. Interpret brief and plan
2. Inspect gear and location
3. Control light, focus and exposure
4. Compose and capture variations
5. Edit, export and critique

© 2026 Tertiary Infotech Academy Pte Ltd

LEARNING OUTCOMES

What You Can Now Do

1

LO1

Set up a mobile phone camera for shooting and interpret a shot plan.

2

LO2

Perform basic mobile photography while meeting safety requirements.

3

LO3

Apply framing and composition techniques using a mobile phone camera.

4

LO4

Enhance visual quality and effects using capture and editing controls.

© 2026 Tertiary Infotech Academy Pte Ltd

QUALITY GATE

Professional Self-Critique

Image craft

1. What is the intended subject and message?
2. Where does the eye go first?
3. Are focus, exposure and colour controlled?
4. Is the composition deliberate?

Fitness for use

1. Does the image meet the brief?
2. Are privacy and safety protected?
3. Is the edit natural and consistent?
4. What one change improves the next capture?
